Please see the notes above. It is stated that the amenities of the kind now proposed to be provided for the T.B. Sanatorium, Bellary, are

GV

most provided in any other similar institution, and ~~if the~~ there seems to be no case for a special treatment in respect of the patients of this sanatorium alone, and it will not be fair to deny such amenities to other Sanatoria in the Province. Provision of magazines, etc. should be left to the patients themselves who can afford to purchase them, ~~and not to be provided from Government funds~~. This Dept. may advise against the proposal, especially in view of the necessity at present to restrict all items of contingent expenditure to the minimum and to avoid all unessential expenditure.
